Data Analytics IHP Provider Grants

The Minnesota Department of Human Services is seeking proposals from Integrated Health Partnerships (IHP) for data analytics projects that will advance the goals of the Minnesota Accountable Health Model. Successful responders will receive funds to implement or expand data analytic initiatives, infrastructure or tools that advance their ability to manage cost and quality.

For this RFP, data analytics refers to an IHP's ability to integrate, aggregate or utilize clinical, administrative and financial information into organization and provider decision making processes in a systematic and meaningful way. It is expected that projects supported by these funds are part of existing analytic efforts; are already in beginning stages of implementation; or have completed sufficient scoping and requirements planning such that IHPs could immediately begin work on the proposed project to enhance or accelerate their ability to achieve the Triple Aim of health care which includes: improving the patient experience of care (including quality and satisfaction), improving the health of populations and reducing the per capita cost of health care.

Eligible applicants for this grant must be contracted with the State as participants of the Integrated Health Partnerships (IHP) demonstration. IHPs may partner, employ or subcontract with other organizations in order to accomplish their proposed projects. In order to encourage replicability, avoid duplication and increase efficiency of proposed projects, special consideration will be given to IHPs who submit proposals together.

A total of \$4 million in federal funding is available for the projects outlined in this RFP (estimated 5-15 grants funded). An estimated range of awards are \$200,000 to \$750,000, per IHP responder. The maximum award is \$750,000 per IHP on the application response.

Proposals must be submitted by 4:00 p.m. Central Time on May 18, 2015. For questions about this funding opportunity contact Heather Petermann at heather.petermann@state.mn.us.

Minnesota Accountable Health Model e-Health Grant Program- Round 2

The Minnesota Department of Health (MDH) requests proposals for the Minnesota Accountable Health Model e-Health Grant Program. The grants are intended to support readiness to advance the [Minnesota Accountable Health Model](#).

Eligible applicants are community collaboratives that have at least two or more organizations participating in an accountable care organization (ACO) or payment arrangements involving shared risk, shared savings or total cost of care. Community collaboratives must include a partner organization from at least two of the four priority settings of the Minnesota Accountable Health Model/State Innovation Model (SIM) grant: local public health departments, long-term and post-acute care, behavioral health and social services.

In 2015, up to \$2 million is available for the following:

- Implementation Grants- 12-18 month projects, up to \$500,000 per grant

An optional informational call will be held on Thursday April 16, 2015, from 10:30 a.m. – 12:00 p.m. Central Time. Call details are:

Call-in number: 1-888-742-5095

Passcode: 4477200226

Non-binding Letters of Intent to respond are due on Thursday, April 23, 2015, and proposals are due Monday, May 18, 2015.
